

## Technical Data Sheet

### QUALIX-DLB

**DLB** is a powerful de-sizing agent and can be used at high temperature without any detrimental on its activity. It gives better results on 100% cotton, polyester & its blends it recovers size like starch, doctrine, acryl, PVA in one bath process. Therefore Qualix-DLB is economical product in saving time, water and electricity.

#### Physical Properties

|                      |                                   |
|----------------------|-----------------------------------|
| Appearance:          | Pale yellowish                    |
| Chemical Nature:     | It contain active oxygen compound |
| Ionic Nature:        | Non ionic                         |
| Solubility:          | Soluble in cold water             |
| Stability to alkali: | Stable                            |
| PH of 1% Solution:   | 7 to 7.5                          |
| Storage Stability:   | One year                          |

#### Application

Qualix- DLB is use in one bath de-sizing Scouring and bleaching process for high read pick heave fabric such as trousers and ultra satin also for polyester-cotton blends, 100 % cotton, woven & knitted fabrics.

De-sizing treatment:-

Use 0.5 % DLB with Caustic Hy-tech and Qualix-D.W

0.5 % Qualix-DLB, 0.6 % HYTECH (Non solvent base scouring agent)

0.15% Qualix-D.W (Conc. solvent base scouring agent)

#### Function:

DLB solution penetrate to the fabric and dissolving various type of Sizes.
