

Technical Data Sheet

QUALIX-HX

(A.P.O. Free)

Qualix-HX is a powerful repaid tailor made scoring agent which helps to combine pretreatment step wise de-sizing, scouring beaching procedure for cotton and blends. It is suitable for both continuous and batch process systems of pretreatments. Qualix-HX is non-hazardous, non-toxic, low foaming agent stable for both mild acid and alkali. It efficiently removes natural impurities like oil, dirt spot and waxes from the fabrics. It also helps in get uniform treatment on the fabric.

Technical Information

Appearance	:	Translucent light bluer liquid
Chemical Composition	:	Fatty alcohol compound with activator
Ph (10 % Solution)	:	7-0
Solubility	:	MISCIBLE in cold water
Compatibility	:	Compatible with non ionic anionic chemical
Application	:	QUALIX-HX 3.00 gm\ l Caustic –x g\l Soda 3gm\l Temperature 110-120 C for 30 Min

It can also apply at low temperature and gives effective result
